TotalPricing®

SAP Price Reporting & Updates Simplified

Significantly shorten the time it takes to report on and update SAP prices, while reducing the burden on internal resources.

Realize a 70% Reduction in Time

The SAP TotalPricing® Utility is a proprietary technology solution offering capabilities to reduce the time to report on and update SAP prices by 70%. SAP users that rely on multiple pricing tables to update and reflect changing pricing conditions or to create pricing reports spend scores of manhours just running price updates. TotalTek's SAP Pricing Utility streamlines reporting prices across multiple condition tables/key combinations.

SAP PRICING UPDATES ARE A CHALLENGING ENDEAVOR:

The current business environment is making SAP pricing a challenging and burdensome endeavor. More frequent pricing changes, inflationary pressures, and vendor surcharges are impeding updates and require increased labor to keep up. TotalPricing offers key features that help companies combat these business challenges including dynamic and customized reporting, report filtering, enhanced views and download features, and pricing updates.

KEY FEATURES & BENEFITS:

- **Dynamic Reporting** on SAP price conditions across multiple pricing tables, multiple key combinations, customer & hierarchy pricing, and material & hierarchy pricing.
- **Report customization and filtering** using standard SAP Selection screens to define specific price conditions, valid-from and valid-to dates, and many other available parameters.
- **Scaled pricing views** and views to both old and new pricing by valid-from and valid-to dates.
- **Standard ALV reporting functions** to sort, filter, and download to Excel or apply a percentage or flat rate change.
- **SAP standard security checks** to ensure proper access to update the prices. • Scheduled updates.
- **File import** to mass load price changes into SAP.
- **Standard formatting**, column removal, and auto-match.
- **API functionality** allowing you to integrate pricing with other systems.

How do you know if TotalPri¢ing is right for your organization?

SD Functional expert

- How many different products do you support?
- How many access sequences do you have configured?
- How often do you do price changes?
- What does your process look like now?
